4. Retention

- Session cookies typically last for the session or token lifetime configured by the Platform.
- Device cookies may persist for extended periods (including approximately one year where implemented) until cleared.
- Analytics event retention defaults to approximately 90 days unless Workspace settings specify otherwise within allowed bounds (platform clamps retention between 7 and 730 days).
- Your choices are tied to the Cookie Policy version; when it changes, you are asked again.

5. Your choices

- Strictly necessary cookies are required for the Service to function; disabling them may prevent login.

- Analytics cookies/storage are consent-gated. You may refuse consent; collection will not proceed without granted consent.
- You can change or withdraw consent at any time through the Cookie settings link in the page footer.
- You may clear cookies and site data via browser settings. See browser help for Chrome, Edge, Firefox, Safari.
